

ADDENDUM NO. 2
October 6, 2016

TO: PLANS AND SPECIFICATIONS FOR

LIBERTY ROAD BRIDGE REPLACEMENT
PROJECT NO. 2016-801-1

Bidders are hereby informed that the construction plans and/or specifications are modified as follows:

SECTION 4 - CONTRACT

If Public Water Supply District No. 4 selects the alternate, the contractor will sign a separate contract with the water district for that specific work. The contract form will be the same format and content as the sample contract form in the bidding documents.

The previous contract information in the bidding documents specified that one combined contract would be issued for both the base bid and alternate but that has now been split into two contracts for the county and water district, respectively.

Insurance and bond will have to be provided to both the county and water district as part of each individual contract.

All other provisions and specifications in the bidding documents will still apply as is.

BY THE ORDER OF:

Eric Landwehr, P.E., County Engineer
Cole County Department of Public Works
October 6, 2016
