

ENHANCING PARENTING SKILLS TRAINING SUMMARY/DESCRIPTION

The parenting program consists of six classes. Each week a new topic is covered. The topics covered consist of communication, behavioral modification requirements, monitoring behavior modification, enforcing the behavior modification, and the last two classes are between the parent and child. While these topics are covered they are not limited to these topics. The beginning survey that is filled out by both the parent and child helps guide the discussions and topic areas of the class.

The parent or guardian must attend all six classes in order to complete the program. The juvenile office will inform the participants of any cancellations or changes in the schedule. Please make sure the information provided on the registration form is accurate. If you have any questions or concerns please contact Lindsay Bunch, Deputy Juvenile Officer, at the Michael Prenger Family Center, at 573-636-5177.
